

Condemn the Genocide Israel is Committing Against Gaza

Is it genocide, though?

"As a human rights lawyer with more than three decades of experience in the field, I know well that the concept of genocide has often been subject to political abuse. But the current wholesale slaughter of the Palestinian people, rooted in an ethno-nationalist settler colonial ideology, in continuation of decades of their systematic persecution and purging, based entirely upon their status as Arabs, and coupled with explicit statements of intent by leaders in the Israeli government and military, leaves no room for doubt or debate. In Gaza, civilian homes, schools, churches, mosques, and medical institutions are wantonly attacked as thousands of civilians are massacred. In the West Bank, including occupied Jerusalem, homes are seized and reassigned based entirely on race, and violent settler pogroms are accompanied by Israeli military units. Across the land, Apartheid rules.

This is a text-book case of genocide. The European, ethno-nationalist, settler colonial project in Palestine has entered its final phase, toward the expedited destruction of the last remnants of indigenous Palestinian life in Palestine. What's more, the governments of the United States, the United Kingdom, and much of Europe, are wholly complicit in the horrific assault. Not only are these governments refusing to meet their treaty obligations "to ensure respect" for the Geneva Conventions, but they are in fact actively arming the assault, providing economic and intelligence support, and giving political and diplomatic cover for Israel's atrocities.

In concert with this, western corporate media, increasingly captured and state-adjacent, are in open breach of Article 20 of the ICCPR, continuously dehumanizing Palestinians to facilitate the genocide, and broadcasting propaganda for war and advocacy of national, racial, or religious hatred that constitutes incitement to discrimination, hostility, and violence. US-based social media companies are suppressing the voices of human rights defenders while amplifying pro-Israel propaganda. Israel lobby online-trolls and GONGOS are harassing and smearing human rights defenders, and western universities and employers are collaborating with them to punish those who dare to speak out against the atrocities. In the wake of this genocide, there must be an accounting for these actors as well, just as there was for radio *Milles Collines* in Rwanda."

"Genocide Scholars and 100 Palestinian and International Civil Society Organisations Call on [ICC] Prosecutor Khan to Issue Arrest Warrants, Investigate Israeli Crimes and Intervene to Deter Incitement to Commit Genocide in Gaza"

October 20, 2023 at Mezan.org — an excerpt:

"The Israeli military forces have, since [October 7, 2023], indiscriminately targeted the 2.3 million civilian population, infrastructure, residential and commercial buildings, mosques and hospitals as part of total warfare on the population. They have sealed off the territory, and employed other unlawful means and methods, that include collective punishment, forcible transfer, starvation, and the use of white phosphorus in densely populated areas. According to our documentation up to 13 October 2023, it is clear that, prima facie, the Israeli authorities have committed a number of international crimes against the Palestinian people that fall under the jurisdiction of the Court, including that of wilful killing, intentionally directing attacks against the civilian population, civilian objects, humanitarian workers, ambulances, hospitals and places of worship, extensive destruction of property, persecution of the civilian population, and incitement to genocide.

Alarmingly, Israeli officials have been issuing statements that indicate a clear intent to commit war crimes, crimes against humanity and incitement to commit genocide, using dehumanising language to describe Palestinians. [...]

The statements accompanied by military action in Gaza and the escalation of arrests and killing in the West Bank, promoted a joint warning from UN Special Rapporteurs that "there is also a risk of genocide against the Palestine people". Our organisations are similarly alarmed by these statements, which warrant your urgent intervention to prevent the commission of the most heinous international crimes, elements of which are already materialising on the ground with every passing minute. Our organisations warn that the cutting off of water, electricity and internet in Gaza, in addition to the denial of entry of humanitarian convoys of food, medicine, and other supplies necessary for the survival of the population that would pass through the Rafah crossing, which the Israeli military has also repeatedly bombed, are all evidence that Israel is taking steps to act on its inciteful genocidal statements."
